INHWE 2019

We are very pleased to announce that we will be running two events in 2019! Both our events, [Dublin 2019](#) and [Nicosia 2019](#), taking place in January and May respectively, are specifically designed to create the perfect opportunity for active networking and knowledge sharing while also facilitating multi-stakeholder discourse by bringing together educators, policy makers, researchers and experts from across the globe. The Dublin event will look at Inter-Professional Education with Nicosia focusing on Future Education for Healthcare. Both events have a comprehensive list of sub-themes and the Call for Abstracts for both events is now open!

European Healthcare Students' Associations Summit

On 7th of June 2018, the European Healthcare Students' Associations Summit (EHSAS) organised a policy event called "Interprofessional Education: A way to transform tomorrow's healthcare!". It was hosted by MEP Lieve Wierinck (Alliance of Liberals and Democrats for Europe), at the European Parliament in Brussels, Belgium. During the event, delegates and presenters identified key issues and presented best practices of interprofessional collaboration and stressed the importance of adopting a multidisciplinary approach within healthcare. For more information please see the final report of the [event here](#).

European Health Parliament 3rd Edition

The European Health Parliament (EHP) is recruiting new members to its 3rd edition. The application period will close on the 15th of August. The EHP organises four plenary sessions to pull in expert feedback from the EU policymaking circle. The objective is to meet with key stakeholders and share ideas with EU officials, Members of the European Parliament, NGOs, media and interested public and deliver valuable policy recommendations. If you want to be part of the next EHP, then you should apply via the [following form](#). INHWE is very happy to support any interested members in the application process.

EUROPEAN HEALTH PARLIAMENT

INHWE Working Groups

Our Working Groups provide opportunities for educators, practitioners, researchers and policy makers within our membership to connect and advance their focused area of practice and research. Working Groups focus on topics that are important to health workforce educators and address some of the more complex, cross cutting issues related to education and training. Each group aims to benefit from a multi-stakeholder and inter-disciplinary audience and are accessible to all our members free of charge. Click here to visit our [Working Group Pages](#).
